Art Unit: 1654

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on November 14, 2005 has been entered.

Page 2

- 2. Claims 63 and 67 are objected to because of the following informalities: Periods need to be re-inserted at the ends of claims 63 and 67. Appropriate correction is required.
- 3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., In re Berg, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); In re Goodman, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); In re Longi, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); In re Van Ornum, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); In re Vogel, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and In re Thorington, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

4. Claims 38-41, 46-54, 56, 58-60, 63, and 66-68 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-31 of U.S. Patent No. 6,803,357 (which issued based upon copending Application No. 09/601,432). Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims of the '357 patent clearly anticipate the instant claims.

Application/Control Number: 09/628,225

Art Unit: 1654

5. Claims 38-41, 46-54, 56, 58-60, 63, and 66-68 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-88 of U.S. Patent No. 6,890,898 (which issued based upon copending Application No. 10/190,267). Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims of the '898 patent clearly anticipate the instant claims.

Page 3

6. Claims 38-41, 46-54, 56, 58-60, 63, and 66-68 are provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-90 of copending Application No. 10/794,316. Although the conflicting claims are not identical, they are not patentably distinct from each other. The '316 application claims administering the same protease inhibitors to the same patients, claims that the protease inhibitors have an EC₅₀ for modifying glucose metabolism which is at least one order of magnitude less than there EC₅₀ for immunosuppression, and claims administering the protease inhibitors in amounts such that immunosuppression does not occur.

This is a <u>provisional</u> obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeffrey E. Russel at telephone number (571) 272-0969. The examiner can normally be reached on Monday-Thursday from 8:30 A.M. to 6:00 P.M. The examiner can also be reached on alternate Fridays.

Application/Control Number: 09/628,225

Art Unit: 1654

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor Bruce Campell can be reached at (571) 272-0974. The fax number for formal

communications to be entered into the record is (571) 273-8300; for informal communications

such as proposed amendments, the fax number (571) 273-0969 can be used. The telephone

number for the Technology Center 1600 receptionist is (571) 272-1600.
